

Meet Agile Wholesale

Placing difficult risks

Masters of our tech and trade

A better way to sell and service your customers?
A quicker to insure without the admin grind and
busywork? Agile blends deep industry expertise
with new school tech to save brokers time and
boost profitability.

Agile is a Lloyd's Syndicate and insurtech MGA specialising in Accident & Health, Aviation, Casualty, Construction, Cyber, Drones, Financial Lines, Property, and Retail Travel.

At Agile, putting brokers first is the aim of the game. That's because we've walked the walk and understand the obstacles and opportunities you face.

In fact, our company was formed in 2015 by a group of Lloyd's and insurtech veterans. We're privately owned, with all shareholders working within the business to support you. Together, our team offers over 500 years combined market knowledge and experience, tailored to the needs of brokers.

But we're much more than just an insurer, MGA or consultancy. Agile's success is built on using technology to help brokers sell insurance better.

That's why you'll find our industry vets working side-by-side with an in-house team of developers and e-commerce experts.

Backed by technology Agile is able to deliver a dynamic style of underwriting expertise that not only frees up your time, but empowers you to create and sell bespoke schemes fast, with expert binders waiting in the wings.

With our in-depth knowledge of the global market and strong relationships globally, we've established a high level of trust from our capacity providers, allowing us to independently service our brokers locally with ease.

Our security is provided by Lloyd's (including our own Lloyd's Syndicate), or APRA approved insurers.

Lloyd's of London is rated A+ by AM Best, and AA- by Fitch and S&P.

Lets us do the busywork of placing the difficult risks.

Don't fit in the box? Not all businesses fit inside the box that agencies and insurers are about to quickly quote and bind. If you have had a large claim or cover cancelled or non-renewed we can help you place the risk.

The Wholesale team have deep connections into Lloyd's in London and have spent years sourcing capacity for hard-to-place risks. In difficult markets it can be hard to place difficult risks.
